

# Ahna Skop, Ph.D., D.Sc.

## Associate Professor of Genetics

University of Wisconsin-Madison • 608-262-1593 • [skop@wisc.edu](mailto:skop@wisc.edu)

[skoplab.weebly.com](http://skoplab.weebly.com)

### Present Position

### Education

<b>Associate Professor of Genetics</b> University of Wisconsin-Madison	2004 - present	<b>Syracuse University</b> B.S. Biology, Minor: Ceramics, Advisor: Dr. Kevin VanDoren (d. 1995)	1990 - 1994
<b>Affiliate Faculty, Life Sciences Communication</b> University of Wisconsin-Madison	2015 - present	<b>University of Wisconsin-Madison</b> Ph.D. Cell and Molecular Biology, Advisor: Dr. John White Thesis: Determining the mechanisms involved in cleavage plane specification and cytokinesis in <i>Caenorhabditis elegans</i> .	1994 - 2000
<b>Affiliate Faculty, UW-Madison Arts Institute</b> University of Wisconsin-Madison	2015 - present		
<b>Wisconsin Science Museum, Board member</b>	2016 - present	<b>University of California-Berkeley</b> Postdoctoral, Mentors: Dr. Rebecca Heald and Dr. Barbara Meyer, John Yates (Scripps); NIH postdoctoral fellowship: A functional proteomic and comparative genomic approach to studying cytokinesis.	2000 - 2003
		<b>Honorary Doctorate of Science (D.Sc.)</b> College of Saint Benedict, St. Joseph, MN May 10th, 2008	2008

### Past appointments

<b>Assistant Professor of Genetics, University of Wisconsin -Madison</b>	2004 - 2011
<b>Museum of Wisconsin Art, Board Member</b>	2011 - 2012
<b>Global Professor of Biology, NYU-Abu Dhabi</b>	2012 - 2013
<b>SACNAS, Board Member Elect</b>	2014 - 2016

### Professional society membership

<b>American Society for Cell Biology (ASCB)</b>	1996 - present
<b>Genetics Society of America (GSA)</b>	1996 - present
<b>Society for the Advancement of Native Americans and Chicanos in Science (SACNAS)</b>	2004 - present
<b>American Association for the Advancement of Science (AAAS)</b>	2006 - present

## Honors & Awards

---

<b>Presidential Early Career Award for Scientists and Engineers (PECASE) ; President Bush</b>	2006
<b>Remarkable Women in Science, AAAS</b>	2008
<b>Emerging Scholar, Class of 2008; Diverse: Issues In Higher Education Magazine award</b>	2008
<b>Kentucky Colonel</b>	2008 - present
Highest honor bestowed by the state of Kentucky to a Kentuckian	
<b>Honorary Doctorate of Science (D.Sc.), College of Saint Benedict, St. Joseph, MN</b>	2008
<b>40 under 40, In Business Magazine award</b>	2008
<b>Carl Storm Underrepresented Fellowship Awardee, Gordon Research Conference, Motile &amp; Contractile Systems</b>	2009
<b>Forward under 40 award, from the Wisconsin Alumni Association (WAA)</b>	2010
<b>Chancellor's Inclusive Excellence Award in Teaching</b>	2016
<b>National Academy of Sciences, Kavli Frontiers in Science Fellow</b>	2015
<b>HHMI Teaching Mentor, UW-Madison WISCIENCE Teaching Fellows Program</b>	2014 - 2015
<b>UW-Madison Teaching Academy</b>	2016

## Grant Support (Current)

---

<b>Investigating midbody mRNA function during mitosis</b>	07/01/2017 - 6/30/2020
<b>Source: NSF MCB 1716298</b>	
Annual direct costs: \$250,000 Role: PI Percent effort: 10%	
<b>Investigating the Contribution of Membrane Trafficking to Cell Division</b>	6/1/2012 - 5/31/2018
<b>Source: NSF-MCB-1158003 (No cost extension)</b>	
Annual direct costs: \$227,784 Role: PI Percent effort: 15%	
<b>UW-Madison Fall Competition Award</b>	7/01/2016 - 6/30/2018
<b>Source: WARF To support a graduate student</b>	
Annual direct costs: \$52,610 Role: PI Percent effort: 0%	
<b>Vilas Life Cycle Award</b>	7/1/2015 - 6/30/2017
<b>Source: UW-Madison</b>	
Annual direct costs: \$40,000 Role: PI Percent effort: 1%	

## Grant Support (Pending)

---

<b>Mechanisms that govern RNA Binding Protein function and mRNA regulation during mitosis</b>	2018 - 2022
<b>Source: NIH R01 (WILL SUBMIT December 2017)</b>	
Annual direct costs: \$250,000 Role: PI Percent effort: 10%	

## Grant Support (Past)

---

<b>REU: Membrane Trafficking during cytokinesis</b>	6/01/12 - 5/31/2017
<b>Source: NSF MCB MCB-1158003</b>	
Annual direct costs: \$29,612 Role: PI Percent effort 5%	

## STEM Diversity Network

11/012015 - 12/31/2017

Source: Sloan Foundation (via George Mason University)

Annual direct costs: \$10,000 Role: PI Percent effort 5%

## Investigating plasma membrane regulation during development

5/15/2008 - 4/30/2014

Source: NIGMS: K01-HL092583; NIH K01 Research Career Development Award

Annual direct costs: \$133,545 Role: PI Percent effort: 15%

## Regulation of membrane-cytoskeletal dynamics during cytokinesis

05/15/2006 - 04/30/2012

Source: NSF CAREER Award: MCB: 0546398 (PECASE Award)

Annual Direct Costs: \$149,658 Role: PI Percent effort: 10%

## Major Research Instrumentation (MRI): MALDI TOF-TOF

2005 - 2008

Source: NSF DBI-0520825

Annual direct costs: \$ Role: Co-PI Percent effort 5%

## Invited Keynote & Plenary Presentations \*underrepresented

---

### (24 keynote talks: 18 since tenure)

MIT and Univ of Massachusetts-Boston (joint invite) keynote on art science, "Too creative for science?", Boston, Massachusetts	11/3/2017
Mount Desert Island Biological Laboratory, Science Cafe, 2017, Public Keynote on Art & Science. "Too creative for science?", Bar Harbor, ME	8/21/2017
Wednesday Night at the Lab, "Too creative for science?", Madison	3/29/2017
UW-Madison Advising conference, Keynote Speaker, "Creating Inclusive Learning Environments", Madison	3/1/2017
*Women in STEM conference, Keynote Speaker, Madison Science Museum, "Too creative for science?", Madison	11/5/2016
*Outstanding Women in Science series, Keynote, University of Alabama-Birmingham, "Too creative for science?", Birmingham, AL	11/1/2016
*WISE house keynote speaker (Women In Science and Engineering), "Too creative for science?", Madison	10/25/2016
*Cal State University-Northridge, MARC/RISE keynote speaker, "Too creative for science?" Northridge, CA	10/6/2016
*UW-Madison Postdoctoral Association Symposium, Keynote speaker, Madison	9/20/2016
*NY Institute of Technology, Keynote speaker at SOURCE event (science and art), "The mystery and beauty of cell division", New York City, NY	4/15/2015
*Northeastern Illinois University, Keynote speaker at MARC program, "Too creative for science?", Chicago, IL	11/19/2015

*UC-Boulder, Signaling Cellular Regulation Training Program (NIH), career speaker, "Too creative for science?", Boulder, CO	12/1/2015
*Ana G. Mendez University System, Pre-College Symposium, Keynote (Initiative for Maximizing Diversity), "Too creative for science?", NSF funded program, San Juan, Puerto Rico	5/16/2015
*University of Hawaii-Manoa, Keynote (Campus Diversity Meeting/SACNAS), "Too creative for science?", Honolulu, Hawaii	4/18/2015
*Wright State, Public Keynote speaker, "Too creative for science?", Dayton, OH	3/30/2015
*UNC Distinguished Lecture, IMSD (Initiative for Maximizing Student Diversity) Research Symposium, University of North Carolina-Chapel Hill, student-invited speaker, "Too creative for science?", Chapel Hill, NC	11/6/2014
*SANCAS meeting Keynote, "Too creative for science", <a href="https://www.youtube.com/watch?v=VehDRxTCW-4">https://www.youtube.com/watch?v=VehDRxTCW-4</a> , Los Angeles, CA	10/15/2014
Wisconsin Science Festival, Lecture on creativity in science, Madison	9/23/2011
NYU-Abu Dhabi, Distinguished Lecture Series, speaker, "Too creative for science?", Abu Dhabi, UAE	12/5/2011
New Media Consortium (NMC) Conference, Keynote Speaker, "Too creative for science?", sponsored by Apple & Adobe, Madison	6/14/2011
*Children's Hospital of Philadelphia, University of Pennsylvania, "Genetically an artist: How the arts influenced my career in science", keynote speaker at National Postdoc Appreciation Week, Philadelphia, PA	9/20/2010
Bascom Hill Society Showcase Lecture, UW-Madison, Arboretum, Madison	7/22/2008
College of St. Benedict's, Commencement Speech & Received a Honorary Doctorate in Science (D.Sc.), St. Cloud, Minnesota	5/10/2008

## Invited Academic Research Presentations

---

### **(37 seminars; 19 since tenure); \*these are research talks only at academic institutions**

San Francisco State University, What is the connection between cell division and neurodegenerative disease?", San Francisco, CA	9/21/2017
UW-Madison, Genetics Colloquium, "What is the connection between cell division and neurodegenerative disease?", Madison, WI	9/6/2017
Mount Desert Island Biological Laboratory, "What is the connection between cell division and neurodegenerative disease?", Maine	8/21/2017
BioQuest/Qubes 2017 Summer Workshop, "Creative Inclusive Learning Environments", Lansing, MI	7/25/2017
University of Oregon-Eugene, "The mystery and beauty of cell division", Eugene, OR	5/30/2017
UW-Madison, History of Science Department, "Science & Society: Gender and Science", Madison, WI	3/29/2017
University of Alabama at Birmingham, Biochemistry Department, "The mystery and beauty of cell division", Birmingham, AL	11/1/2016
Iowa State University, GDCB Department Seminar, "The mystery and beauty of cell division?", Ames, IA	9/14/2016
UC-Boulder, MCDB, "The mystery and beauty of cell division", Boulder, CO	12/1/2015
Ithaca College, Invited speaker, "The mystery and beauty of cell division", Ithaca, NY	10/2/2015
SUNY Upstate, Invited speaker, "The mystery and beauty of cell division", Syracuse, NY	9/30/2015
Washington State University-Pullman, Invited speaker, "The mystery and beauty of cell division", Pullman, Washington	9/3/2015
Wright State, Biology Department, seminar, "The mystery and beauty of cell division", Dayton, OH	3/30/2015
UC-Davis Invited Speaker, "Unraveling the secrets of asymmetric cell division", Davis, CA	11/14/2013
Chicago Cytoskeleton Invited Speaker, "Cell asymmetry and cell division in <i>C. elegans</i> embryos", Chicago	3/15/2013
McPherson Eye Research Institute, "Cell division in <i>C. elegans</i> embryos", Madison, WI	3/12/2013
Michigan Tech, Invited Speaker, "Cell division in <i>C. elegans</i> embryos", Houghton, MI	3/1/2013
New York University, Invited Speaker, "Cell asymmetry and cell division in <i>C. elegans</i> embryos", NYC, NY	4/23/2012
University League Invited Speaker, "The mystery and beauty of cell division?", Madison, WI	3/15/2012
NYU-Abu Dhabi, "How membrane trafficking contributes to cell polarity and cytokinesis", Abu Dhabi, UAE	12/6/2011
New Mexico State University, Department of Biology, "Cell division in <i>C. elegans</i> embryos". Las Cruces, NM	11/15/2011
New Mexico State University, Department of Biology "The beauty of cell division in <i>C. elegans</i> ", Las Cruces, New Mexico	11/9/2010

University of Colorado-Boulder, Dept. of Molecular, Cell and Developmental Biology. "The beauty of cell division", Boulder, CO	4/1/2010
New Mexico State University, Department of Biology, "The beauty of cell division", Las Cruces, NM	10/21/2009
University of Utah, Dept. of Biology, "Role of dynamin in cell asymmetry", Salt Lake City, UT	10/12/2008
New York University, Dept. of Biology & Dev. Genetics of the NYU Sackler Institute, "Role of Dynamin in cell asymmetry", NYC, NY	8/12/2008
Bascom Hill Society Showcase Lecture, UW-Madison, "The beauty of cell division", Madison, WI	7/22/2008
University of California-Santa Cruz, Molecular Cell & Developmental Biology, 'The beauty of cell division', Santa Cruz, California	5/5/2008
Visualizing Science Meeting, sponsored by the Visual Culture Program, UW Madison, "The beauty of cell division", Madison, WI	2/8/2008
Hong Kong University of Science and Technology, Division of Life Sciences, "The beauty of cell division: the midbody proteome", Hong Kong, China	5/30/2007
Peking University, Beijing, China, School of Life Sciences, "The beauty of cell division: the midbody proteome", Beijing, China	5/22/2007
National Institute of Biological Sciences (NIBS), "The beauty of cell division: the midbody proteome", Beijing, China,	5/21/2007
SACNAS meeting, Molecular Motors and Cellular Movements, "The beauty of cell division: the midbody proteome", Tampa, FL	10/2006
Vanderbilt University, Dept of Biochemistry, "The beauty of cell division: the midbody proteome", Nashville, Tennessee	9/2006
University of Wisconsin-Whitewater, Dept. of Biology, "The beauty of cell division: the midbody proteome", Whitewater, WI	3/24/2006
RIKEN Center for Developmental Biology, "The beauty of cell division: the midbody proteome", Kobe, Japan	10/2005
Queens College, Dept. of Biology, "The beauty of cell division: the midbody proteome", Flushing, NY	9/2005

## Invited Conference Presentations

---

### **(24 talks; 8 since tenure) \*these are science or education talks only at conferences**

National Academy of Sciences, Sackler Colloquium, "The science of science communication III", Washington, DC. Will speak in a session on: "Incentives for Scientists and Engineers to Communicate about their Research"	11/17/2017
BioQuest/Qubes 2017 Summer Workshop, keynote, "Creative Inclusive Learning Environments", Lansing, Michigan	7/25/2017
21st International <i>C. elegans</i> meeting, "The role of ATX-2 in cytokinesis", parallel speaker, UCLA	6/23/2017
ASCB Meeting, Teaching Workshop, "No lectures here: How an active and problem-based learning classroom in genomics transformed the confidence, creativity and communication skills of all students", Workshop speaker San Francisco, CA	12/3/2016
Madison Science Museum, Keynote, Women in STEM conference, "The mystery and beauty of cell division", Madison, WI	11/2016
Kavli Meeting Poster: "The mystery and beauty of cell division", poster Irvine, CA	8/2015
ASCB Minisymposium Speaker: The mechanics of cell division session: "Profiling the metaphase spindle proteome reveals OSTD-1, a N-glycosylation protein, as playing a role in cytokinesis and ER morphology" San Francisco, CA	12/10/2014
ASCB Meeting, "The mechanics of cell division", session chair, Philadelphia, PA	12/2014
SACNAS meeting, 2011, "Value of Doing a postdoc" & "NSF Broader Impacts" Spoke on behalf of the NSF, speaker, San Jose, CA,	10/2011
Society for Developmental Biology Meeting, invited seminar speaker-cell polarity session: "Role of dynamin in cytokinesis and cell asymmetry", Albuquerque, NM	8/2010
NSF Career Awardees Meeting, science and teaching presentation, poster, Washington, DC	6/2010
ASCB meeting, poster presentation on teaching, Washington, DC	12/2010
Gordon Research Conference: Motile & Contractile Systems, "Role of Dynamin in cell asymmetry", New London, NH	7/13/2009
Exciting Biologies: Biology in Balance Meeting, Sponsored by <i>Cell</i> , "Role of Dynamin in cell asymmetry", Buenos Aires, Argentina	10/9/2009
Mechanics and Control of Cytokinesis, "The beauty of cell division: the midbody proteome", Edinburgh, UK	1/11/2008
Japanese Biochemical Society, invited symposium speaker, "The beauty of cell division: the midbody proteome", Kobe, Japan	10/2005

ASCB Meeting, Cytokinesis Mini-symposia, speaker, San Francisco, CA	12/2002
West Coast Worm Meeting, Genomics Session, UCSD, speaker, San Diego, CA	6/2002
BARC (Bay Area Research on the Cytoskeleton), UCSF, speaker, San Francisco, CA	1/2001
Midwest Worm Meeting, University of Minnesota, speaker, Minneapolis, MN	7/2000
ASCB Meeting, Cytokinesis Subgroup Meeting, speaker, San Francisco, CA	12/1999
International <i>C. elegans</i> Meeting, Meiosis, Mitosis and Cell Division Session, speaker, UCLA	6/1999
ASCB Meeting, Cytoskeleton in Polarity and Development Mini-symposia, speaker, Washington, DC	12/1998
Midwest <i>C. elegans</i> Meeting, University of Chicago, speaker, Chicago, IL	6/1998
ASCB Meeting, Dynein/Dynactin subgroup meeting, speaker, Washington, DC	12/1997
Ronald McNair Symposium, speaker, Delavan, WI	2/26/1996

## Invited Professional Development Courses, Workshops, Training

---

UW-Madison Biochemistry Dept. Workshop on Science Communication	10/4/2017
BioQuest/Qubes 2017 Summer Workshop, "Creative Inclusive Learning Environments"	7/25/2017
SACNAS/AAAS LPSLI (Linton-Poodry Leadership Institute), attendee	7/2017
*iBiology Google Hangout, "Getting the most out of a conference"	7/21/2016
NIH NIGMS Workshop for Postdocs Transitioning to Independent Positions, invited panel speaker	3/2010
Wisconsin Region National Science Competition for High School Students, invited speaker about science careers	2/2008

## Educational Activities: Classroom Teaching

---

<b>Genetics 564: Genomic &amp; Proteomics Analysis</b> , sole instructor, 3 credits, spring semesters ( <a href="http://genetics564.weebly.com/">http://genetics564.weebly.com/</a> ) CAPSTONE Course (Spring semesters) (Undergraduate). This course covers basic genomics, proteomics, and bioinformatics while teaching students to communicate science effectively (written, visual and oral skills are learned). Taught entirely using active learning techniques. Enrollment is 20.	2014-2018
<b>Genetics 677: Introduction to Genomic and Proteomic Analysis</b> , sole instructor and developer, 3 credits, spring semesters ( <a href="http://gen677.weebly.com/index.html">http://gen677.weebly.com/index.html</a> ) (became Genetics 564) Spring semesters (Undergraduate). This course covers basic genomics, proteomics, and bioinformatics while teaching students to communicate science effectively (written, visual and oral skills are learned). Taught entirely using active learning techniques. Enrollment is 20.	2009-13
<b>FoS5: Biology &amp; Optical Physics</b> , team taught course at <i>NYU-Abu Dhabi</i> (teaching sabbatical) (Undergraduate) (Two Fall Semesters). This course covered basic cell biology and optics for sophomore students using 50% active learning techniques. Enrollment was 35.	2012-13
<b>Genetics 703: Special Topics: Eukaryotic Regulation</b> , spring semesters, one lecture (Spring semesters) (Graduate). This course is for graduate students and I gave lectures on proteomics for geneticists. Enrollment is 6-15.	2006-08
<b>Genetics 875: Genomics and Proteomics-Methods and Theory</b> , instructor with Dr. Nicole Perna and Dr. Audrey Gasch, 3 credits, Fall semesters (Graduate). This course is for graduate students aimed at teaching computational methods in genomic and proteomic analysis. I taught the section on proteomics. Enrollment was 20 students.	2005-07
<b>Genetics 708: Methods and Logic in Genetic Analysis</b> , instructor with Dr. Xin Sun, 3 credits (Spring) (Graduate). This course is for graduate students and is a seminar course. Enrollment is 30.	2008
<b>Guest Lectures:</b>	
<b>History of Science 133:</b> Biology & Society Course taught by Nicole Nelson, Guest lecture about Gender in Science. This course explores events in the history of biology from the mid-twentieth century to today, and examines how developments in this science have shaped and are shaped by society. Enrollment was 30	3/29/2017
<b>Life Sciences Communication 700:</b> LSC Colloquium for graduate students, taught by Dominique Brossard. One lecture on visual communication in science. This course gives an overview of bioethics, science communication, scientific art, science and technology studies, science policy and new information technologies. Enrollment was 23	2/22/2017

## Educational Activities: Science Education & Professional Development

---

HHMI Teaching Fellows Faculty Mentor, mentored Benjamin Minkoff and Sarah Neuman (Fall-attended course with students, Spring-students teach with me)	2014-15
Delta Program, Instructional Materials Development course, UW Madison, taken with Genetics Ph.D. student David Berry (Spring)	2009

## Educational Activities: Presentations

---

### 4 education talks since tenure at conferences

Qubes 2017 Summer Workshop, "Creative Inclusive Learning Environments", keynote (faculty)	7/25/2017
The 21st International <i>C. elegans</i> Meeting, "Active learning in genomics", poster (faculty)	6/25/2017
UW-Madison Advising conference, Keynote Speaker, "Creating Inclusive Learning Environments", Madison, WI	3/1/2017
ASCB Meeting, Teaching Workshop, "No lectures here: How an active and problem-based learning classroom in genomics transformed the confidence, creativity and communication skills of all students", San Francisco, CA	12/3/2016
Genetics Society of America TAGC meeting, "No Lectures Here: How an active and problem-based learning classroom in genomics transformed the confidence creativity and communication skills of all students", Orlando, FL (faculty/students), Orlando, FL	6/15/2016
UW-Madison Teaching and Learning Symposium invited speaker, "No Lectures Here: How an active and problem-based learning classroom in genomics transformed the confidence creativity and communication skills of all students", Campus Teaching and Learning Conf. (faculty, postdocs, graduate students), Madison	5/20/2015
ASCB meeting, poster presentation on teaching, (faculty, postdocs, graduate students), San Francisco, CA	12/2010
NSF Career Awardees Meeting, invited teaching presentation, (faculty, government), Washington, DC	6/2010
NIH Postdoctoral Mentoring Meeting, invited panel speaker (postdocs), Washington, DC	3/11/2010

## Educational Activities: Mentoring (Postdocs & Senior Scientists)

---

### Advisor/Mentor to 1 postdoc and 1 senior scientist

Dr. Randall D. Dahn, senior scientist. Working on the midbody transcriptome.	2017+
Dr. Yuji Nakayama, postdoc and then visiting scientist from Chiba, Japan, Worked on the role of DYN-1 in cell polarity	2006-08
Current position: Full Professor at Kyoto Pharmaceutical University (Publications: 1)	

## Educational Activities: Mentoring (Graduate Students) \*denotes underrepresented

---

### Advisor/Mentor to 11 graduate students, 7 Women, 2 URM

*Dr. Megan Gnazzo, Ph.D. student in Genetics: Thesis title: 'The role of ATX-2 in cell division in <i>C. elegans</i> ' • Current position: Biotech, Boston, MA Publications: 4	2011-17
*Jennifer Gilbert, Ph.D. student in Genetics, Midbody transcriptomics project • Current position: student in Barak Blum's Lab Publications: 1 (in process)	2016-17
Kathryn VandenHeuvel, Ph.D. student in Genetics (Mastered out), Midbody transcriptomics project • Current position: business Publications: 1 (in process)	2015-16
Angela Johnson, MFA, art student in the lab, MA show title: "Translation" Installed on 2nd floor of UWGenetics Dept., • Current position: scientific artist and Waltrous Gallery Art shows: 2	2014-16
Dr. Kelly Pittman, Ph.D. student in CMB: The role of PAR proteins in cell division • Current position: postdoc at Duke in Dennis Ko's lab Publications: 1	2009-11
Dr. Mary Kate Bonner, Ph.D. student in Genetics, Thesis title: "The metaphase spindle proteome" • Current position: postdoc at NIH in Alex Kelley's lab Publications: 3	2006-13
Dr. Jessica Shivas, Ph.D. student in Genetics, Thesis title: "The role of dynamin in cell polarity in <i>C. elegans</i> " • Current position: Confocal application specialist at Leica Microsystems Publications: 3	2006-12
Dr. Erkang Ai, Ph.D., student in Genetics, Thesis title: "The role of RACK-1 in cytokinesis in <i>C. elegans</i> " • Current position: Associate Attorney at Hogan Lovells in Philadelphia, PA; Medical Device Law/Biotech Regulatory Law Publications: 3	2004-10
Arun Kumaran, M.S., Masters in Biotechnology, Project Assistant: "Midbody proteomic database"	2005

Leonard George, M.S., Masters in Biotechnology, Project Assistant: "Midbody proteome analysis"  
 • Current position: CEO Cquensys in Madison, WI 2004-05

Dr. Justin Schleede, Ph.D. received his Ph.D. in Genetics (lab of Seth Blair), Dynamin in cell polarity  
 • Current position: Technical Director at LabCorp, Clinical Cytogenecist Publications: 1 2004-06

## Educational Activities: Mentoring (Undergraduate Students)

---

### Mentor to 36 undergraduates, 24 women, 16 URM

Celia Glime, undergraduate lab assistant & artist, working with Angela Johnson on NSF broader impacts project 2017+

\*Andrew Geng, undergrad work study student & lab assistant 2017+

\*Alex Villarreal, undergrad work study student, POSSE student 2013-17

• Current Position: Graduate student at the University of Minnesota Publications: 3

\*Izaiah Clinton, work study student 2016

\*Nahin Cano, lab assistant 2016

\*Idanis Sanchez, REU, summer research, from University of Puerto Rico-Ponce 2016

Anna-Lisa Doebley, collaborator with Shawn Ahmed (UNC) 2015

Amanda Dlugi, REU, summer research, from Alverno College 2015

\*Olushola Kemi Olukoga, undergrad work study students, sophomore 2015-16

• Current Position: Medical School Publications: 1 (in process)

\*Elisa Sanchez, REU, summer research, from NMSU; 2014

• Current position: graduate student at Cornell Weil, NYC.

\*Prencia Gant, REU, summer research, from Grambling State Univ. 2014

\*Amy Ochola, undergrad work study student, POSSE student 2013-15

Mikayla Simons, Undergrad student, sophomore, 152 student 2013-16

Josh Bartlett, undergraduate student hourly, sophomore 2012-14

\*Florencia Visconti, REU summer research, from NMSU 2012

• Current position: graduate student at NMSU

\*Farinoosh Dadrass, undergraduate student hourly, junior 2012-13

Chris Hutson, undergraduate student hourly, sophomore 2011-12

Chanel Matsunami Govreau, undergraduate performance art student collaborator 2011

• Current position: performance artist in NYC, Seoul

Yamini Karandikar, undergraduate research assistant, freshman 2011

\*Eddie Dominguez, REU summer research, from New Mexico State University 2011

• Current position: Graduate student at UW-Madison, Publications: 1

\*Clayton Gorman, REU summer research, from New Mexico State University 2010

• Current position: filmmaker & photographer in Hollywood

Curtis Bartosz, undergraduate research and student hourly, sophomore 2009-10

\*Kristin Waukau, REU summer minority undergraduate research, from the College of the Menominee Nation, Keshena, WI 2009

\*Candice Teschner, undergraduate student hourly 2009

Melissa Li, undergraduate research assistant 2008-11

• Current position: Graduate student at Wash U.

A.J. Becker, undergraduate student hourly 2008-10

Ryan Ruf, undergraduate research and student hourly 2007-09

• Current position: Site microbiologist at Proctor & Gamble

\*Brittney Bailey, undergraduate student hourly 2007-09

Bo Hwa Han, undergraduate research on cytokinesis and student hourly 2007-08

• Current position: Vice President at Koalife Media, Inc. Publications: 1

Jen Kulkoski, undergraduate research on cell polarity and Biology 152 student, Publications: 1	2006-08
Thomas Dietz, undergraduate research on RACK-1 and cytokinesis, Biology 152 student	2006-07
Amanda Amodeo, undergraduate research on DYN-1 in cytokinesis, • Current position: Assistant Professor at Princeton Univ.	2005-08
Megan Missaggia, undergraduate research on cytokinesis and student hourly	2005-07
Yunsik Kang, undergraduate research on DYN-1 in cytokinesis, • Current position: postdoc at OHSU in the lab of Marc Freeman	2005-06
Christie Maier, undergraduate research on RACK-1 in cytokinesis • Current position: Postdoc at UC-Davis	2005-06
Amy Thurber, from Kenyon College, summer undergraduate research, • Current position: graduate student at Tufts	2005

## Educational Activities: Mentoring (High School Students)(summer)

---

### Mentor to 5 high school students, 5 women, 2 URM

Anna Granieroo, Middleton High School,	2017
Maddie Pritzl, Sun Prairie High School	2014
*Randi Schuman, PEOPLE program, summer minority high school student, from Lac du Flambeau, WI	2009
*Jasmine Staples, summer minority high school student volunteer, from Philadelphia, PA	2009
Amanda Savagian, summer high school student volunteer	2008

## Educational Activities: Mentoring (Lab Managers/Technicians)

---

### Mentor to 5 lab managers, 4 women

Eva Uhlemann, research associate	2014-15
Amanda Hulfachor, research associate	2014-15
Lan Qin, research associate	2013-14
Daniel Poole, lab manager	2005-12
Maggie Forrestal, technician	2004-05

## Educational Activities: Mentoring (Thesis Committees)

---

### Mentor to 31 graduate students, 18 women, 7 URM

*Ed Suarez-Zayas (Neuroscience: Gomez Lab)	2016-present
Eamon Winden (Genetics: Schwartz Lab)	2016-present
Christina Scribano (MCP: Weaver Lab)	2016-present
Caitlin Short (Neuroscience: Gomez Lab)	2016-present
*Andy Madrid (Neuroscience: Alisch Lab)	2016-present
Annette Dean (Genetics: Taylor Lab)	2016-present
Randee Young (Genetics: Sun Lab)	2016-present
Erica Macke (Genetics: Ikeda Lab)	2015-present
Steven Nolan (Life Sciences Communication: Reaves) (Masters)	2015
Sihui Yang (CMB: Wildonger Lab)	2015-present
*Ariel Cyrus (Genetics: Grinblat Lab)	2014-16
*Elaine Welch (Genetics; Pelegri Lab)	2012-17
Sarang Brahma (MCP; Burkhard Lab)(Masters)	2014-15
*Andrew Hasley (Genetics: Pelegri Lab)	2011-16
Aaron Lomax (Genetics; Vierstra Lab)	2013-17
Angela Kita (CMB; Bement Lab)	2013
Lori Scardino (CMB; Sondel Lab)	2012

Marcus Miller (Genetics; Vierstra Lab)	2012-15
Celeste Eno (Genetics: Pelegri Lab)	2012-16
Natalya Morsci (CMB; Barr Lab)	2012-14
Yunsik Kang (Genetics: Bashirullah Lab)	2012-16
Robb Stankey (Genetics; Vierstra Lab)	2014-16
Stacey Kigar (Pharmacology; Bement Lab)	2012
Tim Loveless (CMB; Hardin Lab)	2011
Allison Lynch (Genetics; Hardin Lab)	2011-15
Xiaoyan Ge (Genetics; Pelegri Lab)	2011
Thomas Lenz (CMB; Loeb Lab)	2011-16
*Bharti Solanki (Genetics; Pelegri Lab)	2009-14
Lori O'Brien (Biochemistry; Weise Lab)	2008-13
Haining Zhang (Genetics; White Lab)	2006-11
*Renee Engle (Genetics; Barr Lab)	2005-10

## Educational Activities: Underrepresented Recruitment & Retention

---

Biohouse, speaker	9/26/2017
Genetics Department, Faculty-Student Mentoring program	2017+
WISE learning community, keynote speaker and mentor	10/25/2016
SACNAS Chapter Advisor	2014+
POSSE student visits to lab during SOAR	2013-14
New Mexico State Univ. recruitment with Assistant Dean Dorothy Sanchez and MARC student interviews	2009-15
CALS and Graduate School Underrepresented Student Recruitment at SACNAS national meeting	2004+
AISES Chapter Advisor	2007-08
Lab visits by Upward Bound students to the Skop Lab	2006-07
Native American student recruitment to UW-Madison campus via AISES meetings	2007-08
Lab visits by Menominee High School students to the Skop Lab	2005-06

## Service Activities: Departmental

---

Genetics Department: Faculty-Student Mentoring Committee (initiated)	2017+
Genetics Department Diversity Affairs Committee (Chair)(started this committee)	2008+
Genetics Department Advisor, Undergraduate	2004-15
Genetics Department Confocal Facility manager	2008-12
Genetics Department 2010 Centennial Committee	2008-10
Genetics Department Undergraduate Curriculum Committee	2007-15
Genetics Department Admissions Committee	2005-06;15-17
Genetics Department Prelim Committee	2004-06

## Service Activities: Campus

---

UW-Madison, Campus-wide Diversity & Climate Committee	2017-20
UW-Madison, Sophomore Research Fellowships Committee	2017
STEM diversity network: Established and built website for campus community, <a href="http://stemdiversity.wisc.edu">http://stemdiversity.wisc.edu</a>	2015+
Chair of CALS Equity and Diversity Committee	2014-16
UW-Madison Arts Institute, (Executive Committee)	2015+
CALS Equity and Diversity Committee member	2012-16
CALS Curriculum Committee	2013-14
STEM Posse Advisory Board, member	2011-15

Bouchet Society Section Committee	2010-15
SciMed GRS (Science and Medicine Graduate Research Scholars) Faculty Advisory Committee	2008+
CALS Undergraduate Recruitment and Retention Committee	2008
Wisconsin Institute of Discovery: Creating Collisions between Humanities, Arts and Sciences Committee	2008-09
Eye Research Institute, Education Committee	2008-09
MicroExplorers, outreach, team member	2007-12
Graduate Program in Cellular and Molecular Biology (CMB) alumni relations (Chair)	2007-09
CALS trip to China with Chancellor Wiley, Met with campus leaders throughout China	2007
CALS Study Abroad Committee	2006-08
Molecular Biology Major Advisory Committee and undergrad advisor	2006-16

## Service Activities: National & State

---

NIH Study Section Reviewer, NIGMS NCSA study section, permanent member	2014-18
ASCB Minority Affairs Committee (elected)	2017+
Wisconsin Science Museum, Board member & branding/logo design <a href="https://wisconsinsciencemuseum.org">https://wisconsinsciencemuseum.org</a>	2016+
SACNAS, National Nominations Committee	2016-18
SACNAS, National Newsletter Committee	2014-16
Science Policy Trip on behalf of the Genetics Society of America (GSA) with Washington, D.C. policy makers about NSF research, poster about science and art <a href="http://genestogenomes.org/c-elegans-cell-division-art-helps-policy-makers-see-nsf/">http://genestogenomes.org/c-elegans-cell-division-art-helps-policy-makers-see-nsf/</a>	4/2016
NOVA Education Advisory Board	2015+
SACNAS, National Board Member Elect	2014-16
Women in Cell Biology Committee Career Discussion and Mentoring Roundtables	2010-16
NSF Study Section Grant Reviewer, Cell division and Cytokinesis (MCB)	2010
Wisconsin Task Force on Arts and Creativity in Education, statewide task force member ( <a href="http://www.creative.wisconsin.gov/">http://www.creative.wisconsin.gov/</a> )	2008-09
Wisconsin Region National Science Competition for High School Students, invited keynote speaker	2008

## Service Activities: International Meeting Organization

---

### Head organizer of 5 International meetings

Organizing Committee-20th International <i>C. elegans</i> Meeting, UCLA	2017
Local Organizer- <i>C. elegans</i> Topic Meeting: Aging & Stress	2016
Organizing Committee-20th International <i>C. elegans</i> Meeting, UCLA	2015
Head Co-organizer-4th biennial <i>C. elegans</i> Topic Meeting: Development, Nara, Japan	2014
Organizing Committee-19th International <i>C. elegans</i> Meeting, UCLA	2013
Head Organizer-3rd biennial <i>C. elegans</i> Topic Meeting: Development	2012
Organizing Committee-18th International <i>C. elegans</i> Meeting, UCLA	2011
Local Organizer-3rd biennial <i>C. elegans</i> Topic Meeting: Neurobiology	2010
Head Organizer- 2nd biennial <i>C. elegans</i> Topic Meeting: Development & Evolution	2008
Local Organizer- 2nd biennial <i>C. elegans</i> Topic Meeting: Neurobiology	2008
Local Organizer- 2nd biennial <i>C. elegans</i> Topic Meeting: Aging & Stress	2008
Head Organizer- 1st biennial <i>C. elegans</i> Topic Meeting: Development & Evolution	2006
Head Organizer- 1st biennial <i>C. elegans</i> Topic Meeting: Neurobiology	2006
15th biennial International <i>C. elegans</i> Conference, plenary session co-chair	2005
ASCB Meeting, Cytokinesis and Cellularization Mini-symposium, invited co-chair	2004
ASCB Meeting, Mechanisms of Cytokinesis in Diverse Organisms, session chair and organizer	2000

## Service Activities: Journal reviewer

---

*Science, Nature, Nature Cell Biology, Developmental Cell, Current Biology, Molecular Biology of the Cell (MBoC), Briefings in Functional Genomics and Proteomics, Current Opinion in Cell Biology, European Journal of Cell Biology (EJCB), Genes & Development, Genesis, Journal of Cell Science (JCS), Journal of Cell Biology (JCB), PLoS One, PlosBiology, PlosGenetics,*

## Outreach Activities (below are highlighted efforts)

---

### See also Invited Keynote talks (24 public presentations about my science and art projects)

Science Policy Trip on behalf of the Genetics Society of America (GSA) with Washington, D.C. policy makers about NSF research, poster about science and broader impacts: <a href="http://genestogenomes.org/c-elegans-cell-division-art-helps-policymakers-see-nsf/">http://genestogenomes.org/c-elegans-cell-division-art-helps-policymakers-see-nsf/</a>	4/2016
"Cool Science Images" digital scientific art show at UW-Madison, part of <a href="#">The Why Files</a> , curatorial committee	2012-17
Scientific art show at the Ebling Library, curatorial committee	3/2011
"Science & Art" traveling scientific art show, by the Science Museum of Minnesota for the Arkansas Discovery Network, consultant, NSF funded ( <a href="http://www.arkansasdiscoverynetwork.org/rent_science_and_art/">http://www.arkansasdiscoverynetwork.org/rent_science_and_art/</a> )	2009+
"Tiny: Art From Microscopes at UW-Madison" scientific art show at the Dane County Regional Airport, curatorial committee	2009
Wisconsin Task Force on Arts and Creativity in Education, statewide task force member ( <a href="http://www.creative.wisconsin.gov/">http://www.creative.wisconsin.gov/</a> )	2008-09
Art show at College of Saint Benedict, St. Joseph, MN, artist	5/2008
Southern Graphics Council collaboration with Jonas Angelet, art work inspired by cell division	2006
"Dynamic Elements"- a multi-media concert by Mark Hetzler and Katrin Talbot, consultant, C. elegans movies were used	2006
International <i>C. elegans</i> Art Show founder and organizer, at the biennial International C. elegans Meeting <a href="http://genestogenomes.org/twenty-years-of-the-worm-art-show/">http://genestogenomes.org/twenty-years-of-the-worm-art-show/</a>	1997+
Logo design for the biennial International <i>C. elegans</i> Meeting abstract book and website	1997-16

## Press: International

---

### \*Bolded articles have nice overviews of various projects

"Worm Art at #Worm17", <i>Genes to Genomes</i> , Genetics Society of America blog, <a href="http://genestogenomes.org/worm-art-at-worm17/">http://genestogenomes.org/worm-art-at-worm17/</a> (worm art show winners, 2017)	7/12/2017
"#Worm17 Love", <i>Genes to Genomes</i> , Genetics Society of America blog, <a href="http://genestogenomes.org/worm17-love/">http://genestogenomes.org/worm17-love/</a> (art show press)	6/26/2017
" <b>Twenty years of the Worm Art Show</b> ", <i>Genes to Genomes</i> , Genetics Society of America blog, <a href="http://genestogenomes.org/twenty-years-of-the-worm-art-show/">http://genestogenomes.org/twenty-years-of-the-worm-art-show/</a> (Highlight about how the worm art show started)	4/28/2017
"New online network emphasizes diversity, supports STEM, <i>WisBusiness.com</i> , <a href="http://www.wisbusiness.com/index.iml?Article=386310">http://www.wisbusiness.com/index.iml?Article=386310</a>	4/12/2017
